

New Police Powers and Coronavirus Law

To stop the spread of coronavirus there are **new rules** we all have to follow

The rules say there are only 4 things you should go outside for

You can go out to **buy food and medicine**

You can go out to **get medical help**

You can go out to **exercise once a day**

You can **travel to work** if you are a **key worker**

The law says you can also be outside if you are in danger of being **hurt at home** or of getting ill or injured

The Police can **stop** you to ask why you are outside

The Police can **tell you to go home** if you are not meant to be outside

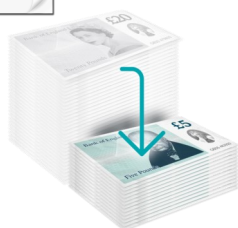

The Police can **take you home** if you do not go home when they tell you to

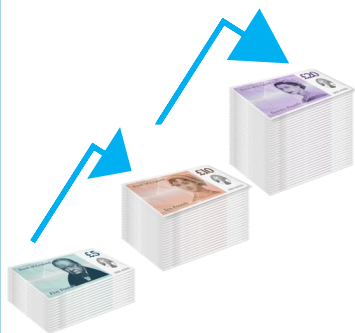

The police can **fine you** if you break the rules about being outside

This means you will have to **pay money**

The first fine is **£60**

if you pay it within **14 days** you will only have to pay **£30**

You can be **fined each time** you break the rules

You will have to pay more money each time up to **£960**

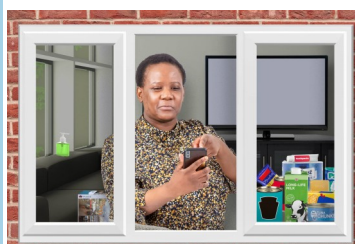

The police **cannot arrest you** just for being outside

They can talk to you or call someone who supports you

If you **spit or swear** at the police or try to **hit or kick** them they **can arrest you** even if you are meant to be outside

Stay home as much you can to keep **safe and well**
