

COVID-19

# COVID-19 Roadmap

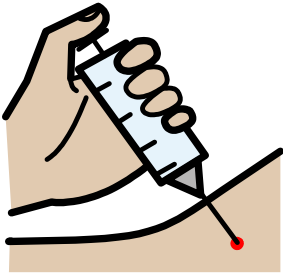

## The Four Tests

government

These are the **four tests** the **Government** will look at to see if we can **move on to the next step** of the **Roadmap**.

### Test 1

vaccine

The **vaccine** programme continues **successfully**.

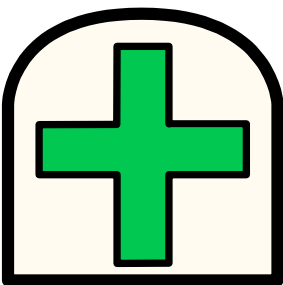

### Test 2

evidence

**Evidence** shows that the **vaccines** are **effective** in reducing the number of **people in hospital** and **deaths** in people who have been **vaccinated**.

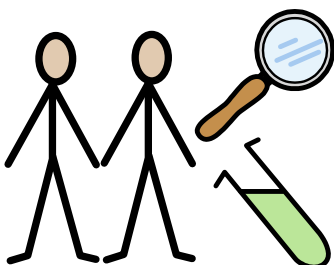

### Test 3

NHS

**Infection rates** do not **surge**, resulting in **more people in hospital** which would mean the **NHS** could not cope.

### Test 4

scientists

**Scientists** **assessment** of the **risk** is not massively changed by discovery of a **new variant of coronavirus (COVID-19)**.
